

Assignment #1

시스템경영공학과

2016314726 정영준

Successful campus life is a goal of most university students. Successful campus life contains preparing future career and post-college life, setting up philosophy by reading books, keeping a good GPA, having many experiences like internship, industry-university projects until graduation and enjoying life with hobbies. Preparing future career is very important and students should have plan for that. Students can choose many ways after their undergraduate, like entering companies, starting Startup, entering graduation school, and studying abroad. We should submit our CV and Resume to companies or graduation school to introduce ourselves and our careers. Because I double major in System Management Engineering and Computer Science, programming study is essential for me. There are several tips for studying programming efficiently. Select a good book, Type every statement in book, Run each program and verify its correctness, Modify program by adding features, Search for open source, and Take online programming exams such as BaekJoon. Reading book is also important elements for achieving successful campus life. The book "7 Habits of Highly Effective People" propose 7 habits (Be Proactive, Begin with the End in Mind, Put First thing First, Think Win, Seek First to understand, Synergize, Sharpen the Saw). Last, key factor for successful campus life is hobby activity. You can participate in circle activity (ex. Orchestra, Violin, Guitar, Swimming, etc). Check how your campus life is going now. Then Analyzing the good and the bad in your current state. List up the things that you want to achieve during your campus life and personal life.
